

第26期-实现注销功能与重置密码

2021年4月7日 21:51

创建模型

```
public class LogoutViewModel  
public class ForgotPasswordViewModel
```

多语言: ForgotPasswordViewModel.zh-CN.regx

创建 Action 方法

```
[HttpGet]  
public async Task<IActionResult> Logout(string logoutId)
```

```
[HttpPost]  
[ValidateAntiForgeryToken]  
public async Task<IActionResult> Logout(LogoutViewModel model)
```

```
[HttpGet]  
[AllowAnonymous]  
public IActionResult ForgotPassword()
```

```
[HttpPost]  
[AllowAnonymous]  
[ValidateAntiForgeryToken]  
public async Task<IActionResult> ForgotPassword(ForgotPasswordViewModel model)
```

创建视图

Logout.cshtml
ForgotPassword.en-US.cshtml
ForgotPassword.zh-CN.cshtml

数字证书生成

```
makecert.exe -r -n "CN=idsrvtest" -pe -sv idsrvtest.pvk -a sha1 -len 2048 -b  
11/11/2020 -e 11/11/2088 idsrvtest.cer
```

```
pvk2pfx.exe -pvk idsrvtest.pvk -spc idsrvtest.cer -pfx idsrvtest.pfx -pi idsrvtest
```
